

Welcome to Wenzhou Wanguo Fluid Equipment Co., Ltd

Company Information

Wenzhou Wanguo Fluid Equipment Co., Ltd. (former International Fluid Equipment Plant founded in 1999), established in 2002, is a well-known industry pioneer of sanitary fluid equipment in China with a higher market share and good sales results in European and American high-end markets.

We can produce 1 million meters of pipes, 3 million pieces of pipe fittings, 100,000 sets of valves and 3,000 sets of pumps each year. In addition, we are provided with many standard products and can deliver them quickly.

With state-of-the-art production equipment and manufacturing process, we mainly make stainless steel sanitary centrifugal pumps, valves, elbows, tees, reducers, clamps, end sockets, manholes and mirrors, all of which have passed the inspection of TUV, SGS and 3A. We also can produce according to DIN, ISO, 3A, BPE, SMS, BS, DS, IDF and other international standards and provide OEM services.

We have been well praised by customers for advanced manufacturing technologies, high quality and first-class after-sales services. What' s more, we make full use of Made-in-China' s price advantage to serve customers. Welcome to visit us.
